

Corrections and Community Supervision

Upstate Correctional Supervisor Featured on State's BuildSmart NY Webpage

June 3, 2015

Upstate Correctional Facility Maintenance Supervisor 3, Gene Aubrey, [was featured on the BuildSmart NY website](#) for his work coordinating 20 Energy Conservation Projects, over the past five years, at Upstate. With support from his staff, Aubrey has been able to implement a number of improvements including replacing a significant number of exterior lights with LED fixtures, replacing old lighting with LED fixtures throughout the interior of the facility and better insulating equipment in the mechanical room. Costs of the projects have totaled more than \$430,000 with \$85,000 coming back to the facility through rebates and incentives.

BuildSmart NY is Governor Cuomo's Statewide initiative to accelerate energy efficiency in State buildings, while incorporating broader State policy goals to foster cost-effective investment, stimulate the clean energy marketplace, advance energy security and resiliency and protect the environment and public health
