

DOCCS' Staff From Across The State Attends Critical Training

Last month DOCCS held a statewide training focused on the Department's Accreditation Program. A total of 161 DOCCS staff comprised of facility ACA Managers, Executive Team liaisons, and Nurse Administrators attended the training. Every correctional facility, Training Academy, Community Supervision, Board of Parole, and Correctional Industries were represented. The training also provided an overview of Healthcare Outcome Measures and an overview of the Department's progress towards compliance with the Prison Rape Elimination Act (PREA) and ongoing audits.
