

Ten DOCCS Facilities Receive National Accreditation Honors

Ten of the first 19 DOCCS correctional facilities, to be audited in 2016, successfully became reaccredited by the American Correctional Association (ACA). Each correctional facility, and other components of DOCCS, continue to be nationally accredited tri-annually by the ACA.

Starting in February, the ACA audited and confirmed reaccreditation to the following facilities; Coxsackie, Fishkill, Five Points, Food Production Center, Hale Creek, Marcy, Mohawk, Mid-State, Sing Sing and the Willard Drug Treatment Center.

In August, the ACA will start to audit another nine DOCCS facilities.

Eastern Correctional Facility, in Napanoch, was the first reaccredited facility in 1982. The reaccreditation process confirms the operations, administration, and management meets or exceeds hundreds of nationally accepted standards.
