

Watertown Correctional Facility Donates To Children's Miracle Network

The Make A Difference Day Committee at the Watertown Correctional Facility recently purchased some items for the Children's Miracle Network Hospital at Samaritan Medical Center. The group purchased a mamaRoo and rockaRoo with extra fabric covers for the NICU department and two Whisper Ride Buggies for the Pediatric department. Members of the committee also visited the hospital for a tour of each department and saw first-hand how their donations make a difference.

The MADD Committee is made up of two executive team members, one correctional officer and six civilian staff. The committee has helped many other organizations in the community to include American Cancer Society, American Heart Association, Habitat for Humanity, Urban Mission, and the Children's Home of Jefferson County to name a few.
