

Corrections and Community Supervision

Cape Vincent Correctional Facility Gives Back to Local Elementary School

Each June, the Make A Difference Day (MADD) Committee at Cape Vincent Correctional Facility purchases a book for each student at Cape Vincent Elementary School to ensure they have something to read over the summer. Several committee members recently hand delivered the books at the school to some very excited students eager to start their summer reading. Several students even sent handwritten thank you cards after the visit to show their appreciation to the facility staff. The MADD Committee was able to purchase the books thanks to the generous donations from staff to the many fundraisers the committee has hosted throughout the year.
