

DOCCS Staff “Shine the Light” on Domestic Awareness

For the tenth straight year, New York State has taken part in the “Shine the Light on Domestic Violence” campaign in honor of National Domestic Violence Awareness month. Each October, state employees are encouraged to wear purple to increase awareness of domestic violence and on October 19, DOCCS staff across the state wore purple to support of the campaign. In addition, members of the Board of Parole wore purple to the monthly business meeting on October 23 to show support for the cause.
