Lakeview Correctional Facility Staff Collect Donations to Make A Difference

Staff at Lakeview Shock Incarceration Correctional Facility recently collected a variety of items to benefit several organizations, both locally and nationally, in honor of Make A Difference Day. Throughout the year employees collect aluminum pull tabs to benefit the Buffalo Ronald McDonald House and after months of collecting, the tabs were recently taken to a recycling company that doubled the amount of the donation. Additionally, employees collected items to be donated to patients at Roswell Park receiving chemotherapy treatments, which can sometimes take up to eight hours. These items included snacks, small craft items, games, puzzle books, word search books, coloring books, pencils and markers, to be donated to both children and adults receiving these treatments. Lastly, staff collected needed items for victims of both Hurricane Harvey and Hurricane Irma, including food, school supplies, toiletries, paper towels, socks, and even items for pets.
