

Groveland Correctional Facility Staff/Inmates Donate to Local Causes

The Make a Difference Day Committee, at the Groveland Correctional Facility, recently completed a goal of decorating three non-profit businesses for the fall season. With a donation of straw bales and cornstalk from Lieutenant Semmel, the committee was able to decorate the Kids Start in Mount Morris, the Mount Morris High School, and the Noyes Hospital in Dansville.

In addition to the straw and stalk donations, the Lifer's Inmate organization donated Pumpkins.

The Groveland Correctional Facility Lifer's Organization also made several donations to local Livingston County Food Banks after they grew an array of vegetables in a garden next to their dormitory. The garden, maintained by members of the organization, was large enough to grow and hold the 2,266 pounds of donated produce.
