

Corcraft Employee Receives National Award

April 16, 2015

Nancy Abraham, Supervisor of Purchasing for Corcraft Products, recently received her NCIA 2015 National Staff Award. The award was given out April 12th in Indianapolis by the National Correctional Industries Association (NCIA). Abraham was notified she won the award in January. Abraham's award recognizes outstanding performance and supervisory excellence by Correctional Industries personnel from all across the country. Abraham received the same award, from the regional chapter of the NCIA, in October of 2014. Her name was then submitted with other regional winners around the country before being chosen. Corcraft Assistant Director, Patrick Fitzgerald, nominated Abraham after she was thrust into his role as Assistant Director while Fitzgerald was deployed by the Air Force to Afghanistan for eight months. In her role as the Supervisor of Purchasing for Corcraft, Abraham is responsible for contracts in excess of \$20 million annually. "I am thrilled and honored to receive the award", Abraham said when first learning of the news.
